

SupplyDivision

Suppliers of elastic, sewing thread and trimmings, press fastener eyeletting and button covering machinery specialists. Suppliers of custom made webbing, tape and elastic assemblies.

KPR1 is a foot operated ratchet press. It is supplied complete on a stand which incorporates two side trays for stud part storage.

It is designed to attach most press fasteners, rivets eyelets, jeans buttons etc.

It is extremely versatile and can be used for placing piercing trim on textiles or paper and card. We can supply a full range of dies, which are made in the UK of hardened & tempered steel to fit our own ranges or your existing studs or eyelets.

It's fully floating adjustable base allows precision horizontal alignment and exact vertical locking in order to obtain the optimum pressure setting. Once up to speed KPR1 is rated at approx. 240 studs and hour, thus eliminating the need for expensive pneumatic or electric machinery.

All new machines are sold with a 6 months back to base warranty, but anyone who has seen our KPR1 will know that it's solid construction & simple internal design will facilitate many years of faithful, trouble-free service

Full operating instructions are included with each machine. KPR1 is so simple to use that a complete novice will be producing quality products within minutes! In short our KPR1 is a solid robust machine that will add considerable value to your products, resulting in increased efficiency, quality, and inevitably customer satisfaction.

Stud prices vary from GBP 0.06 to GBP 0.60+ per set dependant on style and quantity. UKSS supplies all the major stud, eyelet, grommet & rivet ranges. We supply our studs in individual parts packed in 1000's for those that may use more of one part than another.
